Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, 7-15 and 17-20, drawn to a silver halide photographic material comprising at least one compound represented by formula (I) and at least one photographically useful group-releasing compound represented by formula (II) or (III), classified in class 430, subclass 544.
 - II. Claim 6, drawn to a silver halide photographic material comprising at least one compound represented by formula (I) and at least one surfactant having a specified critical micelle concentration, classified in class 430, subclass 631.
 - III. Claim 16, drawn to a silver halide photographic material comprising at least one compound represented by formula (I) and a compound represented by formula (IV), classified in class 430, subclass 607.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different photographic effects resulting from the use of various photographic components, i.e., the photographically useful group-releasing compounds represented by formula (II) or (III) as in Group I, the surfactant having a specified critical micelle concentration as in Group II, or the compound represented by formula (IV), as in Group III.

Art Unit: 1752

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for each of Groups I, II or III is not required for the other two Groups, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Marc Boland on July 11, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geraldine V Letscher whose telephone number is 703-308-3208. The examiner can normally be reached on usually Monday through Thursday.

Art Unit: 1752

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet C Baxter can be reached on 703-308-2303.
